Guidance Notes

Data is collected on a parish basis as the parish remains the “legal entity”, and so you will need to return one form per parish. This may mean that more than one form may need to be returned from a large grouped benefice or Ministry Area; equally, it may be necessary in some parishes or Ministry Areas, such as united parishes, to consolidate data from more than one local (congregation or church) source.

If you are in any doubt about the makeup of your benefice, please contact your Diocesan Office.

The following detailed notes provide a breakdown of the categories of income and expenditure which should go into each box.

Common errors in completing the Finance Return

1. Definitions of General Funds, Designated Funds and Restricted Funds

Parishes are often confused by the classification of General Funds and Restricted Funds.

- **General Funds / Unrestricted Funds** are income or income funds which can be spent at the discretion of the PCC members (trustees) in furtherance of any of the parish's objects.
- **Designated Funds** are part of the unrestricted funds which the PCC have earmarked for a particular project or use, without restricting or committing the funds legally. The designation may be cancelled by the PCC if they later decide that the parish should not proceed or continue with the use or project for which the funds were designated

Designated Funds should be included within General Funds on the financial return.

- **Restricted Funds** are funds subject to specific trusts, which may be declared by the donor(s) or with their authority (e.g. in a public appeal) or created through legal process, but still within the wider objects of the parish. Restricted funds may be restricted income funds, which are spent at the discretion of the PCC in furtherance of some particular aspect(s) of the objects of the parish.
- **Endowment Funds**, where the assets are required to be invested or retained for actual use rather than spent, should be included in the Finance Return under Restricted Funds. However it should be noted that they should be shown under Endowment Funds in the parish accounts.

2. Investment Gains and Losses

There is now a separate line on the form for other recognised gains and losses.

Whilst it is recognised that parishes preparing their accounts on a Receipts and payments basis will not have any investment gains / losses in their Receipts and Payments Account, any investment gains / losses should be entered into this line on the Finance Return.

3. Deposit accounts

There is often confusion surrounding the bank deposit accounts. Transfers to and from your accounts should be treated the same as for any other transfer between bank accounts - you should ensure that you **do not** double-account for the transfer, i.e. do not include the transferred amounts within your income or expenditure.

4. Inclusion of all bank balances

ALL bank balances held by the PCC, including deposit and savings accounts, must be included within your total funds.

5. Amendments to the form

Please do not amend the forms in any way – the forms are designed for the information to be directly input into the database.

Please enter the amounts from your accounts directly into the form –

DO NOT add any further rows or columns to this form.
